Vehicle seems to move from point to point along a
route of pre-planned route "dropping off" or "delivering"
something of interest. Objects "delivered" are metal, rounded,
long, & contain both liquid & solid materials which
don't mix. Yellow is associated with objects

Route seems to be closed - i.e. terminated at origination
point, almost as if objective is to enclose certain area of
terrain. Route goes up hills & down hills, across water, etc.
Terrain is sandy prairie, but with ^{loose} vegetation & trees
scattered here & there;
